

WILDLIFE MONITORING AND OUR WILDLIFE POLICY

- ❖ Our hotel is committed to being aware of and fully complying with current local, national and international regulations and guidelines regarding wildlife viewing and wildlife interactions .
- ❖ Our staff will be trained to protect wildlife and ensure sustainable interaction in all our hotel activities. This training will be regularly renewed and updated in collaboration with local nature conservation organizations and experts.
- ❖ Our hotel is committed to supporting projects that support efforts to protect and sustain wildlife habitats. These projects may include habitat restoration, the creation of wildlife sanctuaries and the sustainable management of local ecosystems .
- ❖ Our hotel will collaborate with local nature conservation organizations and relevant stakeholders to protect wildlife and promote sustainable tourism practices. These collaborations may include activities such as providing support for scientific research, carrying out projects for the restoration of natural habitats and engaging local communities in wildlife conservation efforts .
- ❖ Our hotel will identify potential risks to wildlife disturbance within the property and take the necessary measures to minimise these risks. These measures include designating special areas for the protection of natural habitats, implementing litter and waste management policies and adopting practices that encourage the sustainable use of natural resources.
- ❖ Our hotel is committed to the continuous review and improvement of wildlife conservation and sustainable tourism practices. In this context, we will follow local and international regulations, take into account new scientific findings and adopt best practices.

This policy reflects our hotel's commitment to wildlife conservation and sustainable tourism practices. All staff and guests are responsible for adhering to this policy and are expected to actively contribute to our hotel's wildlife conservation efforts.
