

SUSTAINABLE PURCHASING POLICY

Our company aims to increase its environmental and social responsibility through our suppliers and business solution partners by adopting sustainability principles. This policy was created to ensure sustainable supply chain management and environmental compliance.

SUPPLIER SELECTION:

Quality and Certificates: Our suppliers are expected to have internationally recognized quality assurance management systems and environmental and occupational health and safety management systems. They are also required to have internationally recognized sustainability-related certificates.

Environmental Compliance: The environmental impacts of our suppliers' production processes must be minimized and they must fully comply with environmental legislation.

Resource Use: Our suppliers must use natural resources appropriately, comply with hunting bans and consume resources without harming ecosystems.

Waste Management: Our suppliers must strive to reduce and properly manage waste, and offer reduced packaging or bulk packaging alternatives in product packaging.

Product Features: Suppliers must offer product alternatives that are environmentally friendly, economical, respectful of local values, recyclable or recycled materials, and do not test on animals and do not contain harmful chemical components.

Local Production and Cultural Values: Suppliers must provide local production and services, and offer products and services that reflect the cultural values of our country and region.

APPLICATION:

This policy is communicated to all suppliers and they are encouraged to collaborate to co-create sustainable purchasing opportunities. By collaborating with our suppliers, we aim to minimise the environmental impacts resulting from our procurement processes.

MONITORING AND REPORTING:

The implementation of the sustainable purchasing policy is regularly monitored and reviewed. We regularly request sustainability-related information and data from our suppliers. Monitoring and evaluating supplier performance in terms of sustainability is an ongoing process.

This sustainable sourcing policy is designed to reflect our company's commitment to environmental and social responsibility and to help our supply chain achieve our sustainability goals. We expect our suppliers to fully comply with this policy and actively contribute to sustainability principles.
